PRESS RELEASE

250+ Jobs Being Offered to Chicago Southside Ex-Offenders

StreetPrayers.org Inc. a Chicago Southside based ministry has secured a nationwide contract to market personal and medical alert devices and residential alarm system equipment from a major industry provider. The ministry will be hiring and training a minimum of 250 south side Chicago young adults.

The exciting thing about this offering is that all of the individuals considered for placement **WILL NOT** be screened according to criminal background check.

The positions are marketing positions where in full time employment, an individual can expect to earn an adequate wage to support their families.

StreetPrayers.org Inc. is calling this program the “**Second Chance Employment and Training Center**”.

We are encouraging the public to help us in two ways. **(1)** Please refer any individuals that have had difficulty entering the job market because of past criminal record. Individuals that have sincerely changed their lives and would appreciate this Second Chance. And, **(2)** The Second Chance Employment and Training Center employees will appreciate your support as they come into your neighborhood to offer these five star products and services. Please support them!

In this way, the African American community can heal itself by working together to bring down the high unemployment rate that plagues our communities.

The interviews will commence and the program will be launched on Thursday February 26 2015. Please call Elder Harvey Pinkney at (708) 757-4425 for scheduling and with any questions you may have.

Additional information regarding the ministry of **StreetPrayers.org Inc.** can be found at: <http://www.prophecysettomusic.com/info/>
